AKER

Holsters For Your

.45 ACP BACKUP

DOUBLE ACTION ONLY

Comfort-Flex Shoulder Holster

Our Shoulder Holster features a contoured harness that locks into your shoulder-neck area. This keeps the centerpiece off of the vertebra at the base of your neck, eliminating the "Ten-penny nail in your neck" feeling. The rear harness strap attaches to the lower portion of the holster, allowing a diagonal carry for maximum concealment. When the rear strap is on the same plane as the front strap, as with most rigs

of this type, you look like you're trying to hide an umbrella under your jacket. Constructed of premium saddle leather, using black metal hardware, the Comfort Flex system carries more like a vest than a holster. Available in black or walnut oil finish.

#101.....\$88.00

Pocket Holster

Our new side pocket holster offers you a comfortable, discreet and secure way to carry your AMT .45 BACKUP.

Designed to ride in either the right or left front pocket, the pocket holster breaks up the outline of the pistol, making it resemble a wallet. The holster also keeps the

butt in the proper position for the draw, and protects the pocket lining from wear. Painstakingly crafted from top grain, premium steerhide, the pocket holster is hand fitted to the AMT .45 BACKUP and is available in natural rough-out finish only.

#156.....\$24.50

Ankle Holster

Our new Comfort-Flex ankle holster provides un-paralleled comfort and security for those who favor this carry mode. Constructed of a special low-stretch elastic, your gun hugs the ankle closely for maximum concealment, with just enough give in the holster for comfort. Thick wool felt is utilized for padding, which absorbs perspiration and prevents the "hot spot" you get with sheepskin padding. The holster secures to your ankle with a hi-grade hook and loop closure, and as designed for your AMT .45, features a unique dual retention system.

#157.....\$33.50

Spring Special

Our "Spring Special" inside the waistband holster for the AMT .45 BACKUP features a metal reinforcing band around the holster mouth. This prevents the holster from collapsing and allows one-handed reholstering. Our extra strength spring clip features a hook configuration for maximum retention, which prevents the holster from being drawn with the gun. The spring special is available in natural finish suede only. The spring special works great in the summer too.

#134.....\$14.00

Paddle Holster

The "Special Agent" paddle holster is designed for the professional who spends a lot of time in the office or squad room but needs to be adequately armed when going out in the field. The paddle retention device firmly locks into the waistband, allowing the holster to be put on or removed in seconds without un-buckling the belt. The AMT .45 BACKUP paddle holster rides very high, and features two adjustable tensioner screws and a quick release thumb break for maximum security. Please specify black or tan finish, right or left hand.
