

AUTOMAG II

SPORTS PISTOL

The first and only production semi-automatic handgun in its caliber

.22

rimfire magnum

EXTRA POWER EXTREMELY ACCURATE

AUTOMAG II is the perfect choice for the small-game hunter or shooting enthusiast who is looking for more power and accuracy in a light, trim handgun. High tech in concept, slim and compact with bold open slide design, AUTOMAG II is the first and only production semi-automatic handgun in caliber .22 magnum. It employs a unique gas channeling system to achieve smooth, trouble-free action.

PERFECT FOR PACKING

The top 2 pistols (left), short barrel versions of the standard AUTOMAG II (6" barrel, bottom), employ all of the original standard model's basic styling and features. The exceptions are the Compact model's closed slide, truncated grip and magazine capacity of 7. These snug, super slim shorter models are ideal for packing and carrying comfort.
